

## Urban Electric Mobility Initiative (UEMI): Newsletter December 2017

The SOLUTIONS partnership and the UEMI have linked their activities to boost their impact, and also create new partnerships to develop targeted concepts and pilot projects for sustainable urban mobility solutions. SOLUTIONS/UEMI aims to support urban mobility implementation actions that contribute to the Paris Agreement and the New Urban Agenda.

This newsletter provides updates on recent events of the UEMI and its cooperation with other sustainable mobility initiatives.

### UEMI activities

The Urban Electric Mobility Initiative (UEMI) and the urban mobility SOLUTIONS network have selected cities and individuals from Europe, Asia, Africa and Latin America to become active Urban Change Maker! This is part of a new partnership with the European Road Transport Research Advisory Council (ERTRAC) and the European Green Vehicles Initiative (EGVI) as part of the EU-funded project FUTURE-RADAR.

#### **COP 23: UEMI Side-Event at the UN Climate Conference in Bonn**

The Urban Electric Mobility Initiative and the FUTURE RADAR project organised a session at this year's Climate Conference (COP 23) focusing on local action and discussing key areas for international cooperation. [more...](#)

#### **UEMI at the G-STIC 2017 conference**

The Urban Electric Mobility Initiative (UEMI) organises the Work Stream on Urban Electric Mobility at this

year's Global Science, Technology & Innovation Conference (G-STIC 2017) with inputs from cities and partners presenting work carried out under the FUTURE RADAR project and the SOLUTIONS partnership. [more...](#)

### Training event in Berlin

A [training event](#) was organised from 16 to 20 October 2017 to showcase sustainable urban development and mobility solutions, to discuss the steps towards implementation, work on pilot project concepts and identify finance and policy options.

With cities from Europe, Asia, Africa and Latin America we worked on implementation concepts for sustainable urban mobility on the 18th and 19th of October. Supported by the EU-funded FUTURE RADAR project, the training session have addressed key challenges and opportunities for sustainable urban mobility, showcased innovative urban mobility solutions that are readily available for take-up and present governance and finance solutions. ## Recent UEMI Publications

### UEMI Position Paper on Opportunities and Priorities for Electric Mobility

To ensure e-mobility solutions are properly integrated in a wider sustainable development concept, the Urban Electric Mobility Initiative (UEMI) aims to assist cities in developing and implementing packages of policies in infrastructure. [The UEMI position paper explores some of the opportunities and priorities for urban electric mobility as part of an integrated sustainable urban mobility concept.](#)

### Transport Pathways for Light Duty Vehicles: towards a 2° Scenario

This paper illustrates various passenger travel-related strategies for achieving a 2° transport scenario, in particular looking at how much technology improvement is needed in the light of different changes in travel and modal shares in OECD and non-OECD countries. [download here](#)
